Professional experiences

2008-nowadays

Technical area manager - R&D Manager - Quality Manager
Assembly operator - Customer care operator - RLS

2015 - nowadays

Design of industrial steam generator (10 kW)

I followed all the stages of design, analysis of competitors products until the edition of the instruction and users manuals.

Functional layout design - Prototype construction - Operating checks- Industrialization - Preliminary and final draws - BOM - Supplier search - Business negotiation - Goods orders.

2010-2016

Advertising campaigns

Realization advertising pages of the trade press.

Concept and moodboard - Photographic shots - Page layout with graphics software.

2014

Sweeper design

Mechanical modifications and tuning of an already existing project purchased.

Partial mechanical layout design (levers, belts, etc.) - Prototyping of mechanical solutions for field test - Verification and development of optimal mechanical layout - Industrialization - 2D and 3D Preliminary and executive drawings - Supplier search.

2012 - 2013

Logistic

Training and use of software for warehouse management, internal orders and planned production orders. Search new suppliers and reorganization and rationalization of stock.

2008 - 2012

R&D

Continuous charging's implementation on some existing models, design of compact steam generator, packaging.

2003-2014 Designer Freelance

2011 - 2014

Graphic design for Cooperative Nuova Vita

2006 - 2008

Innovative image for vacuum-steam generators "Pawnee"

Abandons the traditional body "steel box" to obtain product recognition by design a body "automotive inspiration". Market analysis - Mood board - 3D modeling.

2007

Competition - Participation in O-LED competition: electronic device for guitar lessons.

2004 - 2006

Technical drawings and drafting technical dossiers

Attending all phases of implementation of ISO 9001 in the company, especially the technical aspects of the products.

2003.

Competition - Ex aequo winner of the 1st prize in the competition "Disegnare il granito sardo".

Education and training

2015 - 2016

Web Design Course

106 hour course at the agency accredited Training Veneto (TV) on the themes: web site's creation phases (mochup, masts, graphical drafts, layout study) - Responsive Layout - Accessibility, usability and legal obligations - Website development tools: Photoshop, Dreamweaver, **HTML5** and **CSS3** Google tools - SEO - Web site Publication - Introduction to jQuery and PHP.

2010 - 2016

Training and updates for RLS - (D. Lgs. 81/2008 - rappresentante dei lavoratori per la sicurezza - "workers' representative for safety").

2010 - 2016

Training and updates for the workers safety - (D. Lgs. 81/2008).

2012

Training on Machinery Directive - (Regulations 2006/42/CE).

2011

Training course for internal auditors - (ISO 9001/2008).

2006 - 2008

Design workshops at IUAV clasDIP

2004 - 2005

Civil service at AISM - "Italian Multiple Sclerosis Association".

2004

Degree of 1st level in industrial design - IUAV claDIS - Rating: 107/110

Theory, criticism and practice of industrial design - History of design - Design Workshops: learning of the creative process - Mood board - Story board - Market research - 2D and 3D CAD drawings - Render - Foundations of graphic design and photography.

2000

High school diploma Rating: 98/100

State Art School in Venice - Experimental architecture Address.
Art history - Fundamentals of architectural design - Industrial Design Principles.

Attitudes and skills

Practical and theoretical knowledge of 2D and 3D drawing freehand and CAD, both technical and photographic (render).

Realisation of working prototypes in metal, wood and polymer with normal bench tools.

Good experience of realization shells of polymeric material (glass fiber) starting from the creation of the mold (stiroduro, polystyrene, chalk).

Autonomy and responsibility in carrying out the tasks assigned even when under stress.
Attitude to teamwork.

English: good level

Italian driving license type B.
